

PayU Money and Citrus Pay (ICP) Combined plugin for For Magento 1.9.2.4

Installation Steps (Via FTP)

1. Extract the zip file and upload 'app' folder to Magento <root>.
2. Follow the configuration section to configure the module in Magento Admin panel.

Configuring the Payment Method

1. Login and Navigate to System->Configuration->Payment Methods. Expand the tab named 'PayUMoney and Citrus ICP Combined Payment Module'.

You should see the page as shown in above pic.

If not, please go to System->Cache Management and clear Cache, then repeat this step.

Now click on Flush Magento Cache then Flush Cache Storage.

Navigate back to System->Configuration->Payment Methods and the Payment Module should be visible now.

2. Fill up the configuration details as you received.

Brief description of the info fields....

a) **Enabled:** 'Yes' to enable the module.

b) **Environment:**

This field determines the gateway environment your payment will be redirected to.

This field can have three values :

1) **sandbox** – This is a test environment. No actual fund transfer will take place.

2) **Production** – This is the live environment. Use this value only for your website in production. Payments sent in production environment will actually get processed.

For testing purposes we suggest only use sandbox.

c) **PayU Money Key:** If you have received PayU Money credentials then enter this info.

d) **PayU Money Salt:** If you have received PayU Money credentials then enter this info.

e) **Citrus Payment or Vanity Url:** To use Citrus ICP, enter this value. You also need to fill up subsequent Citrus parameters too.

f) **Citrus Access Key:** Enter the Access Key received from Citrus Pay.

g) **Citrus Secret Key:** Enter the Secret Key received from Citrus Pay.

h) **Route (%):** There are Two boxes, one for PayUMoney and the other one for Citrus Pay. This parameter comes into effect only when both PayUMoney and Citrus Pay credentials are filled up. Total of two boxes must be equal to 100%. E.g. if you want 60% of payments to be made using PayUMoney and then 40% will be for Citrus Pay, so you need to enter 60 in Route (%) PayUMoney box and 40 to enter in Route (%) Citrus. If not entered properly then error will be logged during checkout.

i) **Payment Action:** Select **Authorize and Capture**.

j) **New Order Status:** Select **Pending**.

3. After your have setup information in step 3, click on **Save Config** and you can have your customers make payment via the payment method.
4. While making payment either Citrus Pay or PayU Money will appear as a payment option depending upon configuration done.
